

API Gateway → SQS → Ansible Automation Platform

Webhook intake pipeline provisioned by Terraform (REST API + IAM + SQS + DLQ)

Provisioned by Terraform:

- aws_api_gateway_rest_api / _resource / _method / _integration / _stage
- aws_iam_role + aws_iam_policy (apigateway.amazonaws.com → sqs:SendMessage)
- aws_sqs_queue (main) + aws_sqs_queue_redrive_policy + aws_sqs_queue (DLQ)
